

New Mexico J-1 Visa Waiver (State 30) Program For Foreign Physicians Holding J-1 Visas

APPLICATION ACCEPTANCE DATE: SEPTEMBER 3, 2025 (FFY26)

INTRODUCTION

The New Mexico J-1 Visa Waiver Program (State 30 Program) allows foreign medical graduates to obtain a waiver of their 2-year foreign residence requirement in exchange for a commitment to practice in rural areas of New Mexico after the completion of their training. Under the State 30 Program, the New Mexico Department of Health (NMDOH) may support the requests of up to 30 candidates per federal fiscal year for these waivers.

APPLICATION PROCESSING INFORMATION

Participation in the NMDOH J-1 Visa Waiver process is **completely discretionary, voluntary, and may be modified at any time**. The submission of a complete waiver package does not ensure that a waiver will be recommended. The NMDOH may implement criteria and procedures at any time that are more detailed than the Federal Regulations and reserves the right to recommend or decline any request.

If a Candidate is considering or has already filed for a different J-1 waiver application (e.g. The Department of Health and Human Services, Extreme Hardship), the NMDOH will not accept a Candidate's application packet for consideration. If a different J-1 waiver was filed with any federal agency and the application packet was denied, please provide a printed copy of the denial from the federal agency.

The Immigration Nationality Act (INA), as well as the Department of Homeland Security (DHS) and the Department of State (DOS) regulations, do not specifically address whether Conrad 30 or other J-1 waiver physicians may provide telehealth or telemedicine services full-time in satisfaction of their 3-year J-1 waiver service requirement. Since the National Emergency ended May 2023, and USCIS has not extended telehealth services flexibility, the NMDOH does not allow full-time telehealth or telemedicine towards the completion of the 3-year J-1 waiver requirement.

ELIGIBLE EMPLOYER AND SUPERVISOR

Health care facilities, hereafter referred to as "site(s)", are eligible to be employers of State 30 Program physicians. The site must have a written policy stating that it accepts all patients regardless of their ability to pay; for example, a sliding fee schedule, policy and procedure. The site must accept Medicare assignments and participate in the New Mexico Medicaid program. Examples of such sites include hospitals, primary care, or community health centers whether for profit or not-for-profit.

All J-1 Waiver physician candidates must have an **on-site physician supervisor** identified in the application. Sites at which the Candidate would be the sole physician medical provider present are not eligible under the program criteria for the State of New Mexico. Current NM J-1 Waiver Physicians are not allowed to supervise other J-1 Waiver Physicians during their 3-year 40 hour per week obligation. Potential J-1 Waiver physician candidates should provide full-time in-person direct patient care during their 3-years of J-1 waiver service.

CANDIDATE ELIGIBILITY

Candidates who have residency or fellowship training in disciplines recognized by the NMDOH to significantly improve the health care delivery system within the geographic area of request are eligible to participate in the New Mexico J-1 Visa Waiver Program.

Primary Care specialties include Primary Care physicians working in the out-patient setting:

1. Family Practice.
2. General Internal Medicine.
3. OB/GYN.
4. Pediatrics; and
5. Psychiatry.

Specialty practices include: Specialty Training in addition to General Internal Medicine or other Primary Care specialties (Examples: Hospitalist, Gastroenterology, Endocrinology, Nephrology, General Surgery, Anesthesiology, Pain Management). The NMDOH may identify other specialty areas of needs and consider applications for such.

Physicians must comply with all other Federal and State J-1 Visa Waiver Program requirements. **Physicians must provide direct in-person patient care services at least 40 hours per week.** Teaching, research, or administrative positions are not eligible.

ELIGIBLE HPSA DESIGNATED AREAS

All eligible candidates must seek employment opportunities within federally designated Health Professional Shortage Areas (HPSAs).

Health care facilities that are Federally Qualified Health Centers (FQHC) are automatically eligible for State 30 Program placements regardless of location.

[New Mexico Requirement] The J-1 Candidate **can only work at one practice location** during their 3-year obligation to fulfill the minimum, 40 hour per week requirement (this does not refer to making rounds in a hospital).

NON- HPSA AREAS

The NMDOH is permitted to recommend up to 10 waiver requests each year for physicians practicing in non-HPSA areas, provided that the following conditions are met: the facility must serve all patient populations; accepts all patients regardless of their ability to pay; and accepts Medicare and Medicaid patients.

The practice location in a non-HPSA area must provide a substantial amount of medical services to patients who reside in designated HPSAs. The facility must demonstrate that there is a significant shortage of primary care specialties or specialty physicians and show that there is an unmet need for the physician's specialty and consistent with NMDOH's identification of such need. Candidates must practice that specialty as their primary specialty.

APPLICATION ACCEPTANCE DATE

The NMDOH will begin accepting new applications on **September 3, 2025**. Applications will be accepted continuously until all waiver slots have been filled. New Mexico operates on a first come, first serve basis. To be considered, all components of the application must be complete and meet NMDOH standards. Incomplete applications will not be reviewed further until all required elements are submitted and meet the necessary criteria.

ACCOUNTABILITY

The NMDOH may monitor the obligated service of the J-1 Visa Waiver Physician by letter, survey, report, phone calls, e-mails, or site visits at any time during the required 3-year obligation period to confirm compliance with State of New Mexico and Federal Requirements. J-1 Visa Waiver Physicians will be asked to submit an Exit Survey after completing their 3-year obligation.

In addition, a **Certification of Arrival to Practice and Report Agreement Form** must be filed with the Program (see Attachment C). The certification form confirms that the Physician has arrived and can fulfill their service obligations as a Physician participating in the J-1 Visa Waiver Program.

APPLICATION COMPLETENESS

It is a NMDOH requirement that NM J-1 Waiver Application(s) submittals are complete so they may be reviewed in a timely manner.

The processing time for an application begins when an application is complete and accurate. An application is considered complete when ALL waiver application components are satisfactorily met at the discretion of NMDOH.

Waiver slots will not be reserved.

It is the responsibility of the application(s) submitter to assure completeness and conformity to Federal and State of New Mexico requirements.

NMDOH may implement criteria and procedures at any time that are more detailed than the Federal Regulations and reserves the right to recommend or decline any request.
